FIVE CENTS THE COPY

RAIL MEN CLAIM FARM TAX RATES NOT LISTED HIGH

Railroads Maintain Taxes on Farm Property Must Be Made Equal.

SAY RAIL RATE HIGH Equalization Board Figures Not Accepted by Frisco and Rock Island.

OKLAHOMA CITY, June 1.—"Raise the valuations on farm properties or lower the assessments made against the railroads!" That will be the ultimatum of the Rock Island and Frisco officials Friday when they present their case before the state board of equalization. It is understood. Failure to reach an amicable adjustment will mean a court battle, it is predicted.

Hearing Is Adjourned. At Thursday's board meeting Governor Walton moved that the Rock Island properties be permanently assessed at approximately \$54,000,000. An adjournment was taken, however, and the hearing will be resumed at 10 o'clock Friday morning.

Last year the board assessed the Rock Island on a valuation fixed at \$48,000,000. The Frisco and Rock Island promptly took the matter into court, but after considerable delay an agreement was reached before the case was set for hearing and the Rock Island valuation was set at \$42,000,000, although road officials then stated that a more equitable adjustment must be made before 1923 or the question would be threshed out in the courts until settled.

Unequal Tax Charged. Friday the Rock Island and Frisco are expected to contend that farm properties are now assessed at but 50 percent of their value, while railroad holdings are taxed at their full value.

C. H. Hyde of Alva, however, who appeared Thursday on behalf of the farmers, contended that farms are now assessed in excess of their actual cash value and said he had data at hand to substantiate his statement.

The entire controversy will hinge upon this question, it is believed, road officials stating that their valuations must be lowered or those of farm properties increased, that both interests may pay their equitable share of the tax burden.

Tables Are Submitted. The Santa Fe road was assessed Thursday at the same figure as in 1922. The new Katy assessment was also left at the same figure, plus additions in betterments to their properties since that road has been out of the hands of the receiver.

The Coalgate branch, formerly belonging to the Katy, was assessed at \$12,000 a square mile for main line trackage.

Both the Rock Island and Frisco roads will be assessed at Friday's session if the evidence presented can be covered during the next hearing.

A table submitted by the Rock Island would show how valuations changed between 1921 and 1922 on real and personal property and on public service corporations.

SUNSHINE NEEDED FOR COUNTY COTTON CROP

A few days of sunshine will make the cotton come out and save almost the entire crop, according to the belief of J. B. Hill, county farm physician and adviser. He advises that almost all the cotton which was destroyed by the floods of last week and the week before is now being replanted, and so far as he can see now a full crop ought to be made.

The heavy moisture in the ground is proving a boon to the oat crop, and indications are now the county will harvest above an average crop, offsetting the poor prospects of a month ago.

Corn on the whole has not been damaged, and where it is out of the weeds is in excellent growing condition.

While the cotton crop is late and does not have a good color, Mr. Hill is not alarmed, and has confidence in the yearly yield of farm products. Sunshine is badly need, however.

ADA WEATHER REPORT FOR MONTH OF MAY

Maximum temperature 89; minimum 27. Sixteen clear days; 7 partly cloudy; 8 cloudy. Rain fell on 9 days of the month. Total rainfall was 9.31 inches compared with 5.40 for May, 1922. Total rainfall for the five months of the present year is 19.11 compared with 18.98 for the same period of 1922.

One More Trip for Fortune

NORFOLK, Va., June 1.—Just one more successful voyage as a rum runner with a full cargo of Scotch and English whiskey is the ambition of the owner and master of the British steam yacht Ishtar now lying 15 miles off the Virginia capes, according to the story of the skipper told to local bankers when he came ashore to exchange a quarter of a million dollars for British currency.

This final trip, the captain was quoted as saying, would enable him to retire from the "business" with profits of \$1,000,000. According to the story told the bankers by the Ishtar's master, his vessel had never brought liquor closer than 15 miles of the American coast. Invariably, he said, the Ishtar's cargoes have been sold and transferred at least 12 miles from the territorial waters of the United States.

BRITONS RESENT GRAVE PILLAGING

Inhabitants Hold Indignation Meeting Against Tomb Disturbers.

(By the Associated Press) GRAVESEND, Eng., June 1.—Reverent at the action of Edward Page Gaston, American archaeologist, and his assistants in digging up the remains of scores of bodies in St. George's church yard in their search for the bones of Pocahontas, continues unabated among the townspeople, although Gaston has been at much pains to explain that no disrespect was intended. The inhabitants of Gravesend held an indignation meeting and made known their feelings to the church authorities. They were greatly aggravated, they said, to see the excavators drinking tea and eating cake while seated on the flat tomb stones in their mouths hauled up baskets full of crumbling skulls and bones from the deep vault while photographers snapped the gruesome scene. Some of them even threatened to petition for the removal of Canon Gadge, the blind pastor of the church who officiated yesterday in the disinterment of the bones.

Results Are Negative. While examination of these human bones showed negative results, Dr. W. P. Pyecraft, assistant keeper of the department of osteological collections in the British museum, and Sir Arthur Keith, of the Royal College of Surgeons, were of the opinion that one of the skulls approximated that of an Indian with its characteristic high cheek bones, and oval contour of face and this they decided to retain for scientific examination.

Three other skulls also were kept because of their value as specimens. Thursday's findings convinced Gaston and his assistants that Pocahontas' body will ultimately be found in the old channel under the foundation of the present church in which, according to the church registry, it was buried 307 years ago.

Excavations under the present modern edifice however, cannot be undertaken until the plan of the old church, which was built four years after Columbus discovered America is found, as there is no indication where the old church rests.

RAINFALL REPORTED OVER STATE; CANADIAN ON RISE

(By the Associated Press) OKLAHOMA CITY, June 1.—Tains ranging from moderate to heavy fell in virtually every part of the state during the 24 hours ending at 7 o'clock this morning, according to reports received by the United States weather bureau here.

The North Canadian river here began to rise again today and was at the stage of 12.3 feet at 10 o'clock.

Borneo May Produce Rubber.

(By the Associated Press) MANILA, P. I.—British North Borneo has hundreds of thousands of acres suitable for the growing of rubber, according to Sir William Rycroft, governor of the territory who is in Manila for a short visit. He said the Japanese have large concessions at Tawao on the east coast of Borneo, where they have 20,000 acres planted to rubber.

NOTICE R. A. M. There will be a called convocation of Ada Chapter No. 26, R. A. M., Saturday evening, June 2nd, at 7:30 o'clock, for work in Royal Arch Degrees. All Royal Arch Masons cordially invited to attend. W. P. LEE, H. P.

Mrs. Croker's Friends To Rescue

Left to right, Mrs. Eugene Adkins, Mrs. E. Offield, Eugene Adkins and Mrs. M. E. Adams.

A group of friends of Mrs. Richard Croker, widow of the famous Tammany chief, are now on the high seas bound for Ireland to help Mrs. Croker clear her name of the bigamy charge

hurled by Croker's relatives seeking to obtain a greater share in his estate. Among those hastening to Mrs. Croker's aid are Mrs. E. Offield, who ran the school in the west where Mrs. Croker once

taught; Mr. and Mrs. Eugene Adkins and Mrs. M. E. Adams of Muskogee, Okla., who knew Mrs. Croker years before she became the political chief's wife and a family storm center.

BOY WANTED FOR SHOOTING FOUND

Hot Springs Youth Surrenders After Disappearance Following Killing.

(By the Associated Press) HOT SPRING, Ark., June 1.—James "Dick" Boswell, young high school graduate, sought since his disappearance Monday night which was simultaneous with the shooting to death of Angelo Ciotti, a McAlister youth, on the streets of this city, surrendered to authorities just before midnight, but declined to make any statement to the officers who locked him up, other than to say "I have been fishing."

The boy was turned over to the sheriff by Robert Boswell, James' uncle, who had called officers to his home in the country near here. Negotiations for his surrender had been in progress between officers and members of the family since Wednesday.

Ciotti was slain by two bullets a few minutes after he had left the home of young Boswell's father, where he called on a young woman, the boy's cousin, Mrs. Nora Grissom, the cousin told police that James had threatened her on earlier occasions for receiving attentions from young men and had fired a shot at her once.

A pistol of the caliber used in the killing of the McAlister visitor was found near the scene of the tragedy the following day. The police said it was the property of Boswell.

GARRISON CONTENT IN PERSONNEL OF COMPANY

No changes will be made in the executive and office personnel of the Oklahoma Gas and Electric company here, is the statement made this morning by I. N. Garrison, general manager of the Oklahoma Gas and Electric company properties for the Ada district.

Garrison, who took charge of the Ada office here Monday of this week, is a veteran in the Billings interests, having been with the company continuously for the past 19 years. Manager Garrison has been manager of the Oklahoma Gas and Electric company properties at El Reno for some time. Prior to his activities in the El Reno field, Garrison was located at Fort Smith and in California.

Garrison is well impressed with Ada and its business men and indicated his desire to become a part of the growth of the city.

Ontario Forests Aflame.

(By the Associated Press) SAULT STE. MARIE, Ont., June 1.—Practically the whole forests north of Lake Superior may break into flames unless rains soon descend, said a report received here today from the officers of the Algoma Central railway.

Sarazen Wins Tourney.

(By the Associated Press) LYTHAM, England, June 1.—Gene Sarazen, American open golf champion, today won the Northern professional golf championship with an aggregate score of 290 for the 72 holes played.

Justice Brown On Warpath

Justice H. J. Brown was on the warpath Friday morning. Justice Brown's judicial ire was raised as a result of flood conditions prevalent in his office Friday morning.

Odd fellow lodge members, who met in their hall last night had also used Justice Brown's office as an ante-chamber and at the conclusion of the meeting failed to lower the windows.

Justice Brown reports damages to several of his record files.

HUSBAND'S RAGE IS DEATH CAUSE

Divorced Husband Shoots Man and Woman and Makes Safety Dash.

(By the Associated Press) PONCA CITY, June 1.—Mrs. Earl Metcalf, 32, mother of five children, and Earl Tilton, 25, are dead and officers are searching the Arkansas river bottoms for Earl Metcalf, divorced husband of the slain woman, who is alleged to have done the shooting early today at the home where the woman was staying near the river.

The Metcalfs were divorced about two years ago, the wife being given the custody of the children. Yesterday Metcalf appeared at the Ralph Barry home, where the children were staying and attempted to make his son Charles accompany him. The boy refused and his father is alleged to have threatened to return and kill his mother.

Metcalf returned this morning. Tilton who lived nearby, advised Metcalf to put up his revolver but was shot down, according to the story obtained by the authorities. Mrs. Metcalf ran to the fallen man and was also killed. Charles ran into the house, obtained a pistol and fired at his father but missed. Metcalf then left the scene with his pistol still in his hands threatening to take his own life.

Secrecy Taken in Gathering of Klan Council Conference

(By the Associated Press) WASHINGTON, June 1.—Considerable secrecy surrounded the gathering here today of the imperial klondium of the Ku Klux Klan. Imperial Wizard H. W. Evans declined to discuss plans of the meeting, although he asserted that high national officers were either here or were en route and that the receivership proceedings against the organization begun yesterday in Atlanta would have no effect on the klondium's plans.

Mr. Evans said he regarded the legal move in Atlanta as not serious, adding that those who signed the petition were not high in Klan councils.

Child Slayer to Die

(By the Associated Press) PHILADELPHIA, June 1.—Wyllie "Texas" Morgan, convicted of kidnapping, attacking and slaying six-year-old Lillian Gilmore last February, was today sentenced to die in the electric chair. He was denied a new trial but his lawyers said they would appeal to the supreme court.

Scouts Complete Cycle Test

A new prestige may be established for vacationists in the feat of three Ada boy scouts, who cycled to Sulphur yesterday, completing a 50-mile cycle test sponsored by the scout council.

Three Ada scouts, Carl Brown, Ed Gwyn Jr. and Stanley Dean reported late yesterday afternoon that they had completed the test in the allowed 10 hours. The message was received from parents of one of the scouts.

The scouts making the test reported that they had presented the mayor and police chief of Sulphur with letters of greeting from Mayor Fisher and Police Chief Wick Adair and were royally received.

The three scouts had intended camping in Platt park last night.

TWO PERISH IN BURNING HOUSE

Mother Seriously Burned as She Attempts to Rescue Her Children.

(By the Associated Press) ST. CHARLES, Mo., June 1.—Two children were burned to death and the mother and another child were burned seriously when fire today destroyed the frame cottage of Frank Oberle here. The mother was injured in attempting to rescue her children.

Elizabeth, four years old, and Alvin, two years old, were burned to death and Lawrence, six years old, was carried from the house badly burned by a negro passerby. The origin of the fire is unknown.

Mr. Oberle was at work and Mrs. Oberle was at the home of a neighbor telephoning when the negro saw the blaze and shouted that the house was on fire.

Mrs. Oberle rushed into the burning structure but got no farther than the front door when her clothes caught fire. Neighbors dragged her from the house. Meantime the negro had entered the house and carried Lawrence to the home of a neighbor. The negro attempted to re-enter the house but was prevented by the flames.

Mr. Oberle learning of the fire hurried home and being advised that two of his children were dead, obtained a shotgun and attempted to shoot himself but the weapon was wrested from him by firemen.

Mrs. Oberle and Lawrence were taken to a hospital where it was said that the boy's chances of recovery were slight.

Attempt Made to Stay Injunction in Wilson Case

(By the Associated Press) OKLAHOMA CITY, June 1.—An application to dissolve the temporary injunction restraining George Wilson from assuming the presidency of the Oklahoma A. & M. college until July 1, was filed in district court here today by George Short, state attorney general.

The attorney general charged that the district court had no jurisdiction to grant the injunction which was obtained Wednesday by J. B. Eskridge, retiring president of the college. The application stated that the charges made by Eskridge that the charges made by Eskridge of the institution, would reveal a shortage of more than \$100,000 were "neither relevant or applicable to this action."

City Property is Injured Here by Morning Windstorm

High winds and the heavy rainstorm that visited Ada early this morning did little damage to property here, a conservative investigation revealed.

Reports from over the city indicated that several shade trees had been blown down and one garage reported damaged.

Several breaks in electric lines over the city were reported today, but caused little inconvenience to electric users in the city. Considerable damage was caused by the winds at Holdenville, according to information at the Ada offices of the Oklahoma Gas and Electric company.

CONDITION OF COTTON CROP ADVANCED NOW

WASHINGTON, June 1.—Conditions of the cotton crop on May 25 was 71 per cent of normal compared with 69.6 per cent a year ago and 66 in 1921 and 73.6 for the May 25 average condition for the last 10 years, the department of agriculture announced today in its first cotton report of the season. Oklahoma cotton was placed at 63 per cent.

SPEEDING TRAIN RUSHES FUGITIVE CLARA TO PRISON

Hammer Murderess Maintains She is Innocent of Slaying of Mrs. Meadows.

CLAIMS KIDNAPPED

Claims Peggy Caffee Bought Hammer Used in Brutal Murder.

(By the Associated Press) EL PASO, June 1.—With Texas behind her and Honduras still farther away, Mrs. Clara Phillips, "hammer murderess," sits back in her guarded state room while the Sunset Limited rushes over the Southern Pacific lines towards Los Angeles which it is expected will be reached tonight. Chief Deputy District Attorney Keys of Los Angeles, it is reported here today, will ask commitment papers to send Mrs. Phillips to San Quentin at once to serve her sentence of from 10 years to life for the murder of Mrs. Alberta Tremains Meadows.

The prisoner is coming much in contact with the outside world in her flight homeward. Relatives, friends, newspaper men and 60 policemen of Los Angeles met her at Marfa shortly before reaching El Paso. Southern Pacific officials at the request of the Los Angeles officers bound for Buffalo, arranged for the meeting of the two trains.

During her flying trip across Texas, the now admittedly travel worn prisoner emphasized to Associated Press correspondents at Beaumont, Houston, San Antonio, Del Rio, Sanderson, Alpine and El Paso that she was kidnapped from jail in Los Angeles and that she "will fight to the last court to win her freedom," and that she "never used a hammer one time," and that "Peggy Caffee is the person who bought the hammer."

"Lies, lies, all horrible lies," she cried at El Paso to inquiries as to whether she had been in Juarez while she was a fugitive.

MORRIS TO HOLD REVIVAL MEETING

Community Service to Follow on Heels of Chautauqua Entertainment Here.

The First Baptist church has made arrangements to begin a revival meeting on June 24th just following the Chautauqua on the same grounds. The members of the church have felt for some time that the presence of such a large number of students and most of them future teachers, afforded a great evangelistic opportunity for reaching those among them who were unsaved and to strengthen the others in their spiritual lives hence definite arrangements have been made to hold this meeting during the summer term. The meeting will begin on June 24 and continue for three weeks. The services will be held on the grounds on East Main street owned by Judge McKee and the same seats will be used as will be used for the Chautauqua. It has not been definitely decided as to whether or not they will have a day service but if they do it will possibly be held at the church.

Rev. C. C. Morris, pastor of the First Baptist church will do the preaching in the meeting and the services of one of the greatest evangelistic singers in the south will be secured to have charge of the music. The Community Choral Club members have been invited to join the choir and a general invitation to everybody to join in making the meeting a success is extended. While the meeting will be held under the auspices of the First Baptist church it is hoped to make it a community affair and that everyone will get behind the movement.

BODY OF KITCHIN IN STATE BEFORE INTERMENT

(By the Associated Press) SCOTLAND NECK, N. C., June 1.—The body of Claude Kitchin, once the leader of the Democrats in the house of representatives, lay in state at the old home place here today and will be interred in the Baptist cemetery near that of his father. Hundreds of friends passed by the body today in silent tribute to the man who had given the best years of his life to the legislative service of his country.

More than a half bushel of peanuts per capita were consumed in the United States last year.

JOURNAL-POST TO HOLD RECEPTION

Kansas City Newspaper Publishing House to Entertain Visitors.

KANSAS CITY, Mo., June 1.—The Kansas City Journal and the Sunday Journal-Post, of which Walter S. Dickey is owner and editor, will celebrate the formal opening of a new publishing plant June 2 and 3. A housewarming and buffet supper will be held tomorrow night. Guests of the evening will be given an opportunity to inspect the plant while the wheels are turning and the Sunday editions being produced.

The building, situated at Twenty-second and Oak streets, on one of the beauty spots of Kansas City's elaborate park and boulevard system, is a fire-proof, three-story stone structure having a total of approximately 68,000 square feet of floor space. It is a short distance from the center of the business district and less than three blocks from the union station.

Probably the outstanding features of the new plant is the pressroom, which is equipped with heavy multiple type Hoe super-speed presses having a combined output of more than 500,000 papers daily. Foundations are in place for additional black and white presses and a color press now is being installed on which the Journal-Post will print its comic supplement.

The composing room equipment includes a battery of twenty-five linotype machines, in addition to type casters and monotypes. Junior automatic equipment is used in the stereotype foundry. Citter-Hammer Dispatch automatic conveyors carry the folded papers from the presses to the mail room.

The presses are equipped with the most modern automatic electric control devices and the color setting mechanism, which is accomplished by Hoe spray fountains, also is a feature.

The press room building is an addition to the main building, being separated from the latter by a dead air space of ten inches to eliminate communication of vibration from the mechanical equipment. The business and advertising offices are on the first floor. The executive offices, editorial department, Sunday, woman's, graveure, art, photograph, telegraph, telephone, classified, want ad and circulation departments and the composing room and matrice steam table department are on the third floor, which has a floor space of more than 32,000 square feet.

MCCUTCHEON'S NOVEL "TRUXTON KING" MAKES VIVID PICTURE FOR GILBERT

It has been said of some critics that they write with pens that are overkeen—that the digs pierce thru the newsprint. No matter how harsh the judges may be, they must give a meed of praise to "Truxton King," the Fox production starring John Gilbert, which began a two day run at the American Friday. George Barr McCutcheon's novel was exciting reading, but this film makes each character stand out in the flesh.

John Gilbert's moments of comedy were many and refreshing. His dramatic efforts were convincingly well done. He does some sword fighting, the equal of his blade work in "Monte Cristo." To show that he is an adept at several sports, Gilbert obliges the screen audience with a high dive from a castle wall into a moat. But the delicacy with which he handles the love scenes, often made a trapeze by others less experienced, stamps his art as true achievement.

Ruth Clifford as the sweetheart equals every occasion. She never gushes, never melts over with sweetness, yet she has a charm that holds the heart interest. Gilbert could not have a better feminine lead. Miss Clifford could not hope to play opposite a more gifted star. Mickey Moore, as the young Prince contributes a nice bit of acting. The rest of the cast is of high standard, the direction well done and the photography praiseworthy.

RED CROSS BALL BLUE DELIGHTS THE LAUNDRESS. TRY IT NEXT WASHDAY

Heavy Toll of Accidents Result of Itinerant Air Motorists, Reports Show

NEW YORK, June 1.—The causes for the airplane accidents of 1922, and recommendations for the reduction of future accidents to a minimum, are found in the annual report of the Aeronautical Chamber of Commerce of America to the secretary of commerce. The chamber says the government must provide air law and exercise jurisdiction over all civil flying if casualties are to be reduced. The report indicates that most of the 1922 accidents were due to the itinerant pilot who has no fixed base, is unlicensed and unregulated by law, and therefore has no presumptive responsibility.

"Of approximately 1,200 civilian airplanes in operation in the United States in 1922," says the report, "between 550 and 600 were owned among 130 established operators, that is, individuals and organizations with fixed bases and conservative business policies; an equal number were distributed among itinerant pilots who have no particular system and depend for a living upon stunting, barnstorming tours, and extra hazardous assignments."

"In 1922, there were 122 accidents among the itinerant pilots, or gypsies, and only 12 among the fixed base operators. These accidents resulted in 62 fatalities among the gypsies and only seven among the fixed base operators. One hundred persons were injured through accidents with so-called gypsy planes and only seven were hurt in planes operated from fixed bases."

"The 130 established operators, having definite financial responsibility, fields, repair shops in a majority of cases, and a system of inspection for their craft, demonstrated a degree of dependability unexcelled by older and officially regulated mediums of transportation. They incurred only 12 accidents in 1922 as against 24 accidents in 1921. And many of these could have been avoided had there been in effect federal laws licensing operators."

"In startling contrast is the record of the gypsies. They have consistently replaced their damaged equipment with the obsolete surplus from government stores remaining from war production and available at prices so cheap that youths may, often a few hundred dollars may, and invariably do, acquire airplanes which they alter to accommodate one or two paying passengers. The passengers are led to ride in these machines through ignorance of safety factors controlling flight, and the public generally seems to accept all air craft as airworthy, not pausing to reflect that here is the only vehicle of importance which the operators are not compelled by law to make and operate in a manner calculated to safeguard the public."

"From 500 to 600 of these gypsy craft have wandered from town to town for at least two years. According to the most complete accounts obtainable, in 1921 there were 114 accidents involving itinerant fliers. In 1922 there were 126 accidents, an increase of twelve. In 1921 the accidents resulted in 49 fatalities and 89 persons injured; in 1922, 62 fatalities and 100 persons injured, an increase of 13 deaths, or more than 26 percent, and 11 injured, or more than 12 percent."

"Among the gypsy fliers 27 accidents were due to lack of inspection of their equipment. Government licensing and other regulations would have prevented this. Poor piloting caused 46 accidents, stunting caused 39 accidents, also preventable by federal regulations. 11 were caused by carelessness on fields and 17 were from unknown causes, 14 to lack of landing fields, one to lack of weather data, nine to lack of route data, in which

the pilots became lost and were driven off their course. "In other words, 30 percent of the accidents among itinerants, and they had the vast majority of accidents, were caused by stunting, and 29 percent to faulty inspection of aircraft. This seems to afford sufficient evidence that federal regulations, providing primarily for the licensing of pilots as to competency, the prohibition of dangerous flying, and for the certification of equipment as to airworthiness, will operate to correct abuses in aviation, and make flying safer."

SCIENTISTS STILL ON RELATIVITY ROW

Division Made on Theory of Einstein Contention in Paris.

PARIS.—A division in scientific circles has been made here by the relativity theory of Einstein, challenging old conceptions of time and space. Former Premier Painleve, first a mathematician and later a politician, is threatening to drop politics long enough to prove that the earth has stopped turning. In fact he asserts that it never did turn. M. Painleve has a brand new theory of the universe, based on mechanics. He says Einstein is right, except that he is not right enough.

Professor Langevin, physicist of the College of France, inventor of the sounding machine by which ships may be piloted in any sea, has made what his friends describe as a religion of the Einstein theory, combating old theories and all others with much ardor.

Emile Picard, the genial permanent secretary of the Academy of Sciences, from his retreat in the institute palace, has sought to dodge this battle of the worlds. However, he is inclined to the belief that the old-timers were fairly correct.

Director Baillaud, of the Paris Observatory, says that in many respects science is still like Diogenes, stumbling along with his lantern. "As for me," he added, "I have no opinion as to the relative merits of the discussion. It would take me two years of my life to become familiar with the Einstein theory, and as I am 75 now, I really haven't the time to spare."

ROTES NOW PLAN NEW ETHICS CODE

New Set of Business Standards to be Adopted at International Meet.

ST. LOUIS, June 1.—Administrative problems and the best way to introduce a standard code of ethics among business and professional men throughout the world will focus the attention of ten thousand delegates, to the fourteenth annual convention of the Rotary International, which opens June 18.

The number of Rotary clubs in the world has almost doubled within the last five years, and there now are more than fourteen hundred club units, divided into 49 districts in cities of the United States, Canada, Mexico, Denmark, Uruguay, Spain, Panama and Argentina, with an international organization in the British Isles, Australia and South Africa.

Probably the most interesting business to come before the convention will be the discussion of the proposition that Rotary clubs concentrate their energies for a year in development of programs that will have for an object the introduction of standard codes of ethical practices among business or professional men in all business or profession represented in Rotary.

An unusually large number of delegates from clubs overseas, particularly those from the British Isles and various parts of the British empire have announced their intention of coming and some have already started.

St. Louis is making great preparations for the reception of the visitors, and already reservations have been made for more than 8,000 Rotarians.

Sassafras was credited with so many medical virtues that earliest explorers of the Atlantic coasts came partly in quest of cargoes of the bark.

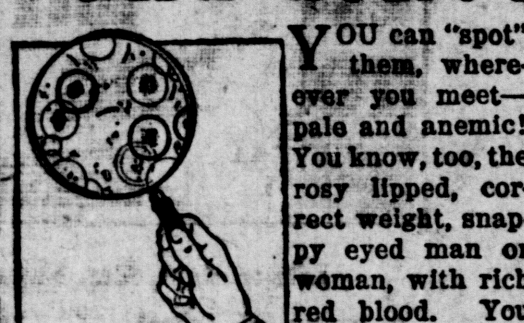

BRITISH GIRLS GETS IN MODEL CONTEST

LONDON, June 1.—A new craze has seized the young women of England. They want to become fashion mannequins and share the niche of popularity with musical-comedy favorites.

A London newspaper is conducting a mannequin contest, in conjunction with England's most fashionable dressmaking establishment, and has drawn applicants from all parts of the British Isles. Those aspiring to become fashion models are required to send in their photographs, physical measurements, description of facial features, or details of any special qualifications they may possess.

The best London couturiers declare that the mannequin of the future must possess brains as well as beauty and pluckitude. In their opinion mere prettiness of face and grace of figure are no longer enough for the efficient display of their artistic creations.

Thousands have weak Blood and don't know it

YOU can "spot" them, wherever you meet—pale and anemic! You know, too, the rosy lipped, correct weight, snappy eyed man or woman, with rich red blood. You recognize them at a glance! Remember this, the number of blood-cells you have controls your nerves, your vitality, your health and strength! It is all you have! The answer, then, is, build up your blood-power! S. S. S. will do it! It is the greatest blood-cell builder known. This is why it has proven

S.S.S. makes you feel like yourself again

Dress has become so elaborate, they say, and the struggle for originality so acute, that the girls on whom these creations are built up must cooperate intelligently in the work, and not content themselves merely with being exquisite lay figures.

EUFAULA, Okla.—Approximately fifty percent of the cotton of Mcintosh county has had to be replanted because of the cold and wet spring, according to County Agent H. L. Bankhead. The county agent said poultry raising and dairying are receiving greater attention from farmers this year than ever before.

Jap Fishermen Arrested
TOKIO, June 1.—Authorities of the soviet administration in Siberia have arrested a Japanese fishing vessel and imprisoned the crew of 72 men for operating within the 7 mile limit. Therefore the fishermen have not been molested unless within the three mile limit.

Do Not Notice

With brush and hot water
And cloths that are clean
'Tis true sanitation,
You'll say it is keen.

For Quality, yes
For Service sure
Then, with sanitary dishes
You don't need a cure.

'Tis keen, 'tis snitchen
This Candy Kitchen
We make cream and candy,
And all of it's dandy.

ternoon in honor of little Miss Jer-
line Pool's seventh birthday. After
playing many games cream and
cake were served to the following
guests: Florence Kethley, Jackie
Lee Butler, Mary Oliver Ellis, Sue
Leen White, Bessie Butler, Mary
Styles, Allene Newton, Janell
Staggs, Lorene Butler, Jessie Cox,
Ester Jackson, Edward England,
and Jerline Pool.

CHURCHES

FIRST CHRISTIAN CHURCH

216 S. Broadway
The members and minister of
the First Christian church extends
to all this invitation to attend the
religious services Sunday. You will
be better prepared for the tasks of
the week.

All members are urged to be in
their places Sunday morning. If a
person believes that the world
needs the church, he has but one
clear way of stating his position.
He must be regular in church at-
tendance. The man who goes to
church stands for an indispensable
institution, even as a good citizen
stands for the state by voting. Ab-
senteeism from the ballot box and
absenteeism from the church are
kindred failures in our duty to so-
ciety.

Regular meeting of the official
board of the church will be held
Sunday afternoon at 3 o'clock.

Young Matrons' Circle will meet
Monday at 3 p. m. with Mrs. J. U.
Criswell 907 E. Main.

Ladies' Aid will meet Monday at
230 o'clock at the church.

Don't forget the fellow-ship sup-
per at the church Monday evening
at 7:30. Bring your lunch and let
us get acquainted. Regular business
meeting of the Church Financing
Association after the supper.

DUBINSKY FEATURE PLAY

PRESENTED TONIGHT

The Dubinsky Brothers will pre-
sent "Is There A God?" the fea-
ture play of their week's engage-
ment tonight at the tent theatre on
east Main. This play is a sister play
to the famous New York success
"Experience." and is presented by
this company with a special scenic
settings and effects. The play is an
allegorical in type and represents
the struggle of many a human
soul to prove to his satisfaction
the great truths of this life. The
theme of the play bears out the
great truths of the Christian relig-
ion.

DALLAS, June 1.—Carl Williams
of Oklahoma City was re-elected
president of the American Cotton
Growers Exchange by the board of
trustees in annual session here
today.

BIBLE THOUGHT FOR TODAY

HE REDEEMS AND CROWNS:—Bless the Lord, O my soul, and forget not all his benefits: who redeemeth thy life from destruction: who crowneth thee with loving-kindness and tender mercies.—Psalm 103:1, 4.

AN EYE ON THE NORTH STAR.

When it looks like everything is going to the bad one might profit by the example of the old dandy a senator tells about. The story is as follows:

"In 1933 came the shower of meteors, sometimes called the 'rain of stars.' Grandfather owned a lot of negro slaves in those days and on the night of the meteor shower, with thousands of 'stars' falling, the negroes were on their knees howling to 'de Lawd' to save them. All except the oldest—and most intelligent negro in the lot. My grandfather, going about trying to quiet the frightened slaves, came upon old Mose leaning up against one corner of the house intently watching the sky.

"'Mose,' said grandfather, 'why ain't you prayin' like the rest o' these damned black rascals?'

"'Marse Dick,' replied Mose, still squinting at the sky, 'Ah done got a bead on de no'th stah, an' when dat ole stah 'gin t' flickuh, Ah gwine t' stah prayin' louder'n all dese othah niggahs put t'gethah—kase Ah'll know fo' suah we's gone.'"

Aesop tells in one of his fables of a donkey which was used to carry a sacred image before which the people of the streets bowed in worshipful reverence. The donkey took this as a show of respect for himself and feeling his importance refused to be driven any farther. However, the driver soon brought him back to a realization of his true position by means of a club, reminding him that it was the image he bore and not himself that the people bowed before. That flop-eared animal had nothing on many people in every walk of life today. Put them in a position of authority or power, be it ever so small, they soon begin to think that the people have an exalted opinion of them and begin to grow chesty accordingly. It is hard for them to realize that it is their position that the people respect and that they are still the same old donks they always were. When put back on the common level they are not long in finding out what their real standing is, although the revelation may sometimes be very wounding to their vanity.

The national sentiment expressed on Memorial Day was that war must be abolished so that never again will it be necessary to call the youth of the land to the battle field. It is a sentiment that finds an echo in every heart and any president who seeks to attain that end should be supported, regardless of party politics. We do not claim to know enough about this deep subject to have a very definite idea about the ways and means of attaining this goal, whether it be by joining the League of Nations, a World Court or some other method, but peace is the aim of America and to assure it all parties should lay aside petty differences and unite in putting through any plan that will make it certain that there will never be another world war.

The Texas legislature passed a huge budget but refused to pass tax measures to provide for some \$8,000,000 deficit which would have existed had the bills become a law, even when called back to special session. The governor then vetoed nearly all appropriations and having wiped the slate clean of some \$39,000,000 invites the legislature to make a new start. Voting appropriations and levying more taxes are quite different and the Texas legislature did not have the nerve to meet the issue it had created but with a new start may trim things down to where the budget will balance. Great is the game of politics, anyway.

We are willing to go the limit in helping Oklahoma dailies get all available local news, but when a leading daily asks us to report promptly any cyclone that may perform in this community, the "nothing doing" sign is out all over the landscape. We have an accurate mental map of all the storm caves in the city and might enjoy other asylums equally retired and private, but when a tail spinner appears on the horizon a telephone office will be the last thing we shall patronize.—Holdenville Democrat.

It is reported from Durant that a federal officer arrested his son and placed him in jail at Hugo on a charge of violating the prohibition laws. The father said he had warned his son to keep out of bad company but the young man did not heed the warning and to his father in the discharge of his duty looked just like any other violator of the law. That officer is of the same type as Junius Brutus who in the early days of Rome passed the death sentence on his own sons for treason to their country.

The death of Gen. Thomas B. Smith a few days ago removes one of the last of the many generals of the Confederacy. Less than half a dozen now survive. These men made an illustrious place for themselves in the history of the nation and the entire country may well be proud of such sons.

OCEAN LINER TAKING ON BAR AT THREE-MILE LIMIT

Supreme court rules U. S. ships can have liquor on board beyond three-mile limit, but drop it off coming inside.

The Forum of the Press

IF I WERE KING

(Holdenville Democrat)

Some years ago McCarthy achieved a fair measure of fame by inditing and publishing his well known work entitled "If I Were King." It is interesting to reflect that each of us has had the desire for superior power and the ability to hold the reins of the world. It is also interesting to reflect what we would do with the world if we possessed the power to direct it and arrange the current of events.

"If I were king," there would be no more disastrous floods ripping the heart from valley farms and strewing hillside with the accumulated debris of husbandry. There would be no more storms of wind leveling villages and farm houses and leaving desolation in the wake of tempests. There would be no more toll weevil invasions destroying the fruits of labor and filling the rural districts of Oklahoma with penury and want.

But we are not king and how fortunate it is indeed that we do not possess superior or directive

power. The purposes of flood and wind and insect scourge are far beyond our finite ken and transcend the reach of our imagination. The power that gauges the fall of a sparrow and clothes the lillies of the field leaves nothing to accident and fate but worked out a world's destiny in ways too mysterious for mortals to understand. There is a most wise purpose behind every act of nature, and that purpose is far wiser than we can conjure in our dreams. Even the destruction wages a pitiless war about us, we have the consolation of knowing that in the presence of every calamity all is well.

Just why we were placed on earth in the midst of eternal conflict we do not know. But beyond all doubt there is wisdom in every wave of misfortune that beats about us and an overruling destiny in every problem that vexes us and brings us to our knees. We are being schooled for the higher duties of an undiscovered future, and we can therefore possess our souls in patience, knowing that somewhere around the corner we shall know as we are known.

Mustard plasters will not blister if the white of an egg is used in their preparation.

Read all the ads all the time.

Newspapermen Go to Sweden

(By the Associated Press)

STOCKHOLM, June 1.—Fifty leading journalists from all parts of the world, including six from the United States, will participate in the International Press Congress at Gothenburg, Sweden, which opens June 16 in connection with the Tercentennial Jubilee Exposition. After the congress they will be taken on pleasure tours through the most interesting sections of the country, according to travel plans and schedules which have been arranged here.

Advertising Truth Slogan of Clothiers at National Meet

(By the Associated Press)

CHICAGO, June 1.—"We hold paramount the truth that advertising is a covenant with the public and that the spoken or printed word is as binding on performance as an oath in a judicial tribunal."

This is the outstanding article in a Code of Ethics adopted by the National Association of Retail Clothiers, 24,000 copies of which are being distributed among the trade throughout the United States in the campaign now in progress to keep the clothing industry at the highest notch of integrity.

The document also emphasizes that the cornerstone of commerce is integrity; that the assets of any commercial institution consist of honesty and business character first. After that, service and men clientele.

OKLAHOMA CITY—Oklahoma has 191,988 farms, half of them operated by their owners, and a total of 71.9 percent of the acreage of the state is under cultivation, according to a recent estimate made by the state board of agriculture. The value of all farm property is placed at \$1,660,423,544, and the average farm value is estimated to be \$8,694, including land, buildings, machinery and livestock, but omitting crops.

4,000,000 bottles just like this are sold every year. Their contents have helped give new health and strength to an immense number of people who believe in Nuxated Iron.

NUXATED IRON

which is iron like the iron in your blood and like the iron in spinach, lentils and apples. It helps make your blood red, healthy, and strong. Without iron, your blood becomes pale, thin and watery and loses its power to change food into living tissue; therefore, nothing you eat does you the proper amount of good—you do not get the full strength out of it. To prove to yourself what Nuxated Iron can do, get your doctor to take a specimen of your blood and make a "blood count" of your red blood corpuscles. Then try it out for one month and have a new "blood count" made and see how your red blood corpuscles have increased and how much stronger and more steady your nerves now are. It will not injure your teeth or disturb your stomach. It is entirely different from ordinary metallic iron which people usually take. Be sure to get genuine Nuxated Iron in tablet form only. It may be had from any reliable druggist.

Gwin & Mays Drug Co.

Would You

—throw away a dollar's worth of flour, sugar, butter, eggs and so forth to save 10 cents on a can of baking powder? That's what happens when you buy the "lots for the money" brands, and that's exactly what never happens when you use

CALUMET

The Economy BAKING POWDER

the most dependable of all leaveners. It is made in the most careful and scientific manner. The materials are absolutely pure, they remain pure in the baking and insure wholesome healthful food.

One spoonful is equal to two of many other brands. You pay less—use less and get best results without loss.

The sale of Calumet is 2½ times as much as that of any other brand.

THE WORLD'S GREATEST BAKING POWDER

Don't blame your grocer!

When you go into his store and ask for "Kellogg's" or "Corn Flakes" you are liable not to get what you are after. Because you have not made yourself clear!

PLEASE HELP ME SOLVE THIS OKLAHOMA PROBLEM!

Tell your grocer you want to buy "KELLOGG'S CORN FLAKES"! Say it all! "Kellogg's" or "Corn Flakes" may be misleading. You'll never make a mistake if you clearly say "KELLOGG'S CORN FLAKES."

Prove that Kellogg's Corn Flakes in the RED and GREEN package are the best ever. Otherwise—your grocer refunds your money!

We are also makers of Kellogg's Bran, cooked and krumbed, and Kellogg's Shredded Whole-wheat Krumbs.

ARDMORE.—The Factory club of this city is giving a series of banquets in neighboring towns, the most recent of which was at Healdton. At Wilson, where the first banquet was given, 100 persons attended, but 120 places were laid at the Healdton affair. Local business men at each place are guests of the Ardmore club at the banquets. Others are planned.

NOTICE TO PROPERTY OWNERS

(Published May 29, 30, 31, June 1, 3, 4, 5, 1923.)

PAVING RESOLUTION NO. 18—2. A RESOLUTION ADOPTING SPECIFICATIONS AND ESTIMATES OF QUANTITIES AND COSTS FOR THE PAVING WITH CONCRETE AND OTHERWISE IMPROVING OF STREET IMPROVEMENT DISTRICT NO. 13, SAME BEING (Section A.) EAST HALF OF SOUTH FRANCIS AVENUE FROM THE SOUTH LINE OF EAST MAIN STREET TO THE CENTER LINE OF TWELFTH STREET, AND THENCE SOUTH FRANCIS AVENUE TO THE CENTER LINE OF ALLEY BETWEEN FOURTEENTH AND FIFTEENTH STREETS; AND (Section B.) NORTH FRANCIS AVENUE FROM THE NORTH LINE OF EAST MAIN STREET TO THE SOUTH LINE OF TENTH STREET, TOGETHER WITH ALL STREET INTERSECTIONS AND ALLEY CROSSINGS ON BOTH THE ABOVE SECTIONS OF FRANCIS AVENUE: ALL IN THE CITY OF ADA, PONTOTOC COUNTY, OKLAHOMA.

BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE CITY OF ADA, PONTOTOC COUNTY, OKLAHOMA.

FIRST: That, acting under instructions of the Board of Commissioners, the Engineer has made the necessary surveys, and has prepared and presented complete and accurate specifications and estimates of quantities and costs of the improvement, to be presently described and formally numbered, which specifications show the width of the paving and the material thereof, and which specifications are hereby approved and ordered filed with the City Clerk of the City of Ada, Oklahoma.

SECOND: That it is necessary to permanently improve with concrete said portions of North and South Francis Avenue, as set out in the caption of this resolution, which portions of North and South Francis Avenue are hereby designated STREET IMPROVEMENT DISTRICT NO. 13 of the City of Ada, Oklahoma, by paving, grading, draining and otherwise improving the same, in accordance with such approved plans, specifications, and estimates of cost thereof, so filed with the City Clerk.

THIRD: That if the owners of more than one-half (1-2) in area of the land liable to assessment to pay for such improvements, shall not within fifteen (15) days after the last publication of this resolution, file with City Clerk of this City, their protest in writing against such improvement, then the Board of Commissioners shall cause such improvement to be made and contracted for, and shall levy assessments for the payment thereof, against such lots and tracts of land liable to assessments to pay for such improvements, as provided for in Sections 1 to 38, House Bill No. 189, the Revised Paving Laws

of Oklahoma, 1922. Passed and approved by the Governor, March 23, 1923, with the Emergency Clause thereto attached.

FOURTH: That this resolution shall be published in seven consecutive issues of the Ada Evening News, a newspaper published daily, and of general circulation in the City of Ada, Oklahoma.

FIFTH: That all resolutions or parts of resolutions in conflict herewith are hereby repealed.

Passed and approved this 29th day of May, 1923.

CITY OF ADA, OKLAHOMA.
By W. H. FISHER,
Mayor and Commissioner of Public Justice and Safety.

Attest: J. C. DEEVER,
City Clerk and Commissioner of Accounting and Finance. 5-29-71*

REJOICES DAUGHTER CAN RESUME STUDIES

"Everything my little 12-year-old girl ate distressed her; even a glass of water would cause her to belch gas and she was unable to go to school for nearly a year. I bought her a bottle of Mayr's Wonderful Remedy, and since taking it she is eating us out of house and home and is attending school again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and druggists everywhere.—adv.

COLLEGE NOTES

Murray county is very well represented in East Central Teachers' College this summer. Fifty students from that county met today with Mr. Donnie Beard, Sulphur, acting as chairman. After a very enthusiastic contest the following officers were elected.

Dewey Hodges, Hickory, president; Houston Wright, Sulphur, vice president; Mrs. J. A. Haste, Sulphur, secretary-treasurer; Elizabeth Hyden, Hickory, reporter.

Hickory, Davis and Sulphur had the largest representation of the Murray county schools and several students from these schools who are in attendance at the College have entered and won in both county and district contests. Two of the members from this county will receive their A. B. degrees from the East Central college at the close of the summer term and a large number will receive life diplomas.

Dwight H. Smith, who has been in attendance at both the Oklahoma university and East Central Teachers' College this year together with his wife will be teachers in Murray county next year.

Green and white were chosen as county colors to be worn at the Student Mixer to be held on the campus sometime next week.

Many social activities are being planned to be participated in by the Murray county students during the summer session which will enable them to become better acquainted and better organized for work in the county for the next year.

The actual number enrolled at the college for this summer is probably somewhat above seven hundred, according to latest estimates from the college.

With one week of the session already gone, the work of the summer is fully begun, classes are meeting regularly, and most of the problems of arrangement have been worked out.

Ada High school faculty is well represented on the college faculty during this summer. Among those teaching there now are W. A. Hill, principal, Oscar Parker, Miss Inez Donaldson, C. R. Cox, and J. E. Hickman. Mrs. Felix is teaching art in the grades.

Mr. Hill, now principal of the high school, has taught during four summer terms at East Central. He has been located in Ada for about seven years. After graduating from William Jewell College, in 1914 Mr. Hill took up teaching as his profession.

He has taught science at the high school, been superintendent of schools at Oketaha and principal at Chelsea, and is now principal here. He is teaching science during the summer.

Mr. Hill takes special interest in the high school band, which organization he has developed into a highly efficient club.

After graduating from East Central in the spring of this year, W. B. Morrison was chosen as one of the extra teachers for the summer. He is an instructor in high school physiology.

Mr. Morrison has been in Ada for two years. Before the war broke out he had been county farm demonstration agent of Pushmataha county, and enlisted while serving as superintendent of schools of Latimer county. Mr. Morrison makes school teaching his profession.

The organization of "57 Varieties" met in room 215 at 1 o'clock. Plans were discussed for carrying out permanent organization and special plans for the "Student Mixer" Monday night. This group will meet at one o'clock Monday in room 215. Watch the "Green Pickle with the 57." We are here! We believe in "Fun!" Watch us Go!

Goiter is prevalent in many sections where water is used that has filtered through rocks impregnated with minerals.

OKEMAH TO SEND UNBEATEN SQUAD

Sealy Slated for Moundwork for Ada; Williams May Be Okemah Twirler.

Reports from Okemah that the Okemah club is framing up to give Ada a good beating here next Sunday and Monday has caused Manager Green to step out and get additional material for his twirling staff. Green has just closed a deal with Sealy, the pitching star of the Wilson club to pitch one of the games and is negotiating with another star pitcher which he expects to get. Fans here remember Sealy since he is the husky red-skin that defeated Ada at Wilson on May 13th and he also twirled for Pauls Valley last year when they beat Ada on Ada's home ground.

The games Sunday and Monday promise to be real contests since Okemah claims she has not been defeated this season and Ada has won four out of the five amateur games played. It has been rumored here that Lefty Williams who started the season with Ada has been secured by Okemah to pitch one of the games against Ada, however, this report has not been substantiated. Word from parties that have seen the Okemah club in action indicates that they have a strong club both in fielding and in hitting.

Manager Green stated today that Monday would be ladies day at the ball park. Ladies will be admitted to the game free and the local club urges a large attendance. Arrangements are being made to get a picture of the new park and it is hoped that the park will be crowded to overflowing.

A TRIBUTE TO JUDGE CLINTON A. GALBRAITH

Oklahoma lost an excellent citizen and a faithful public official when Judge C. A. Galbreath of Ada passed away last Sunday afternoon. He had long occupied a prominent place in the official life of state and nation, having served as supreme court commissioner and assistant attorney general and as a member of the supreme court of Hawaii. In every official station he occupied he showed his faithfulness and capability. But it was as a private citizen that we knew him best and admired him most and it is a personal loss that we deplore today. He lived a clean and manly life and left behind him a host of genuine friends who are saddened by his parting.—Holdenville Democrat.

Veterinarians Prosper.
(By the Associated Press)

LONDON—Despite the much threatened extinction of the horse by increasing use of motor vehicles there is no falling off in the number of veterinary surgeons in London.

This is attributed to the greater attention now paid to cats and dogs and to the fact that while the number of horses decreased, the number of individual owners has increased.

SAVED SICK SPELLS

Black-Draught Found Valuable by a Texas Farmer, Who Has Known Its Usefulness Over 30 Years.

Naples, Texas.—"I have used Theford's Black-Draught for years—I can safely say for more than 30 years," declares Mr. H. H. Cromer, a substantial, well-known farmer, residing out from here on Route 3.

"I am 43 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it.

"I began to take Black-Draught, and have used it, when needed, ever since. I use Black-Draught now in my home, and certainly recommend it for any liver trouble.

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that he is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine: "I always recommend Black-Draught to my friends," he adds.

This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs, and has none of the bad effects so often observed from the use of calomel, or other powerful mineral drugs. Be sure to get the genuine, Theford's.
